

## Malaysia Government Enterprise Architecture

MyGovEA Framework defines a set of core architecture elements in building and operating Enterprise Architecture (EA) practices. There are six (6) elements in the framework.

### MyGovEA Vision

**MyGovEA will establish unified architecture to accelerate public sector service delivery transformation**

The word **unified** refer to alignment between the business and technology strategy of the organization. MyGovEA also provide mechanism, tools and repository to help organization understand current architecture and develop future business and technology direction.

### Values of MyGovEA

**1 Convergence of Business and Technology Strategies**

- Developing the business and technology strategy as a single initiative.
- A joint business and technology strategy will allow agencies to develop a consolidated future business and technology direction.

**2 Strengthening Cross-Agency Collaboration**

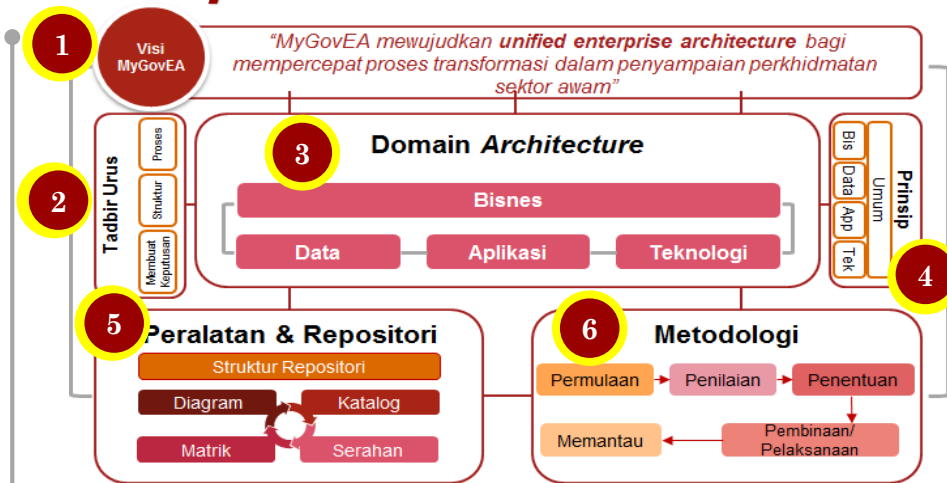

- Allow identification of potential opportunities for future cross-agency collaboration initiatives in areas such as information sharing, application and infrastructure consolidation and shared services.

**3 Re-Enforcing Capability Development in the Public Sector**

- EA practices will further drive the knowledge and capability development of both business and ICT communities in the public sector. Thus establishment of Enterprise Architecture Office (EAO) in agencies are necessary.

# Enterprise Architecture Sektor Awam Malaysia

Rangka kerja MyGovEA menetapkan elemen teras dalam membangun dan melaksanakan amalan Enterprise Architecture (EA). Terdapat enam (6) elemen dalam rangka kerja berkenaan.

## Rangka Kerja MyGovEA untuk Agensi Sektor Awam di Malaysia

**Visi MyGovEA**

**MyGovEA mewujudkan *Unified Enterprise Architecture* bagi mempercepat proses transformasi dalam penyampaian perkhidmatan sektor awam**

Istilah **unified** merujuk kepada penjajaran strategi *business* dan strategi teknologi organisasi. MyGovEA juga menyediakan mekanisme, repositori dan peralatan bagi membantu organisasi memahami *architecture* semasa dan membentuk arah tuju *business* dan teknologi.

## Faedah MyGovEA

- 1. Penumpuan Strategi *Business* dan Teknologi**
  - Pembangunan strategi *business* dan teknologi sebagai satu inisiatif.
  - Gabungan strategi *business* dan teknologi membolehkan agensi membangunkan satu hala tuju *business* dan teknologi yang saling menyokong satu sama lain.
- 2. Memperkasa Kolaborasi Merentas Agensi**
  - Pengenalpastian peluang merentas agensi, inisiatif kerjasama dalam bidang seperti perkongsian maklumat, aplikasi dan infrastruktur yang bersepadu dan perkongsian perkhidmatan.
- 3. Memperkukuhkan Pembangunan Keupayaan dalam Sektor Awam**
  - Amalan EA akan terus memacu perkembangan pengetahuan dan keupayaan *business* dan komuniti ICT dalam sektor awam. Justeru itu penubuhan Pejabat Enterprise Architecture (EAO) di agensi adalah satu keperluan.
